Dear Jurgen Junge:

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. Your email will become a part of ND-2015-20-E - Duke Energy Carolinas: Foothills Transmission and Substation Project- 45-Mile Transmission Line Between Asheville, NC, Power Plant and New Substation Near Campobello, SC, and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Coordinator

Dear Ms. Boyd.

With Duke Energy's own information that in the foreseeable future there is on only an estimated projected increase of energy demand from 0 to 0.4 % there is no need to construct a new power line from Asheville, NC to Campobello, SC.

It would have an economic, environmental, cultural and aesthetic impact on our area. It would greatly reduce the value of our property and damage the pristine landscape of our rural area.

For those reasons it would be a grave mistake to give Duke Energy a permit to allow them to proceed with there Foothills Project.

Jurgen Junge
